**AMERICAN
ASSOCIATION
OF PESTICIDE
SAFETY
EDUCATORS**

AAPSE activities (www.AAPSE.ORG)

AAPSE includes members from state, territorial, tribal, regional, and national pesticide safety education and certification programs, and provides a voice on current issues facing its membership.

AAPSE professional development opportunities are available through conferences and workshops on current pesticide issues.

AAPSE members serve on committees and work groups for national organizations such as American Association of Pesticide Control Officials, Certification & Training Assessment Group, and The Pesticide Stewardship Alliance.

AAPSE's list serve is exclusively for members and is a forum to quickly get answers on questions and emerging issues in pesticide safety, education, and certification.

The Journal of Pesticide Safety Education is the official journal of AAPSE (<http://jpse.org>). Members have the opportunity to publish their studies and program information in a peer-reviewed journal, as well as to learn from colleagues about their activities.

Join us

- ◆ A recognized national voice
- ◆ A forum to keep current on emerging pesticide safety and education issues
- ◆ A source for professional development
- ◆ An opportunity for exchange of information, discussion, and cooperative study

AAPSE members

Enhance public health, security, safety, and the environment through education, outreach, and research that benefits pest managers, policymakers, and the public.

Train and certify or recertify 500,000 private and professional applicators annually who work in agriculture, urban landscapes, parks, structures, forests, rights-of-way, watersheds, public health, and more.

Reach nearly 2 million people annually from inner city areas to remote rural communities with education and outreach.

Publish educational materials such as newsletters, fact sheets, and manuals; create digital and online materials; maintain over 75 websites; and translate materials into many languages.

American Association of Pesticide Safety Educators

*Protecting Human Health and
the Environment through Education*
